20 September 2010

To Whom it May Concern,

This letter is my personal recommendation for NKM Communications . I have had the privilege of working with NKM Communications since July 2009. I have always found them to be an efficient company who are punctual, professional and reliable.

I have employed the services of NKM Communications on a sub-contractor basis on many occasions through the year. Their duties included:

- Rigging and de-rigging of sound and lighting equipment as well as staging for both large and small events.
- Technical supervisor at events
- Provided quotation for clients
- Customer care at events
- DJ services at events

I have always found NKM Communications a pleasure to work with and they demonstrates terrific interpersonal skills when dealing directly with colleagues and clients. At events, NKM Communications always conducts themselves in a professional manner and handles clients requests in a positive and thorough way.

They have a great deal of technical knowledge and all set ups he has overseen for me have been done diligently, timeously and without error.

I would recommend NKM Communications services with the greatest of confidence. Please feel free to contact me if you have any questions regarding NKM Communications.

Sincerely,

Brendan Morisset  
Owner – [DJSA.co.za](http://DJSA.co.za)
